

# STOREXCEL

**A BUNDLED SOLUTION BUILT ON QUANTUM XCELLIS  
WITH BEST OF BREED OF BREED ASSET MANAGEMENT**

## WHAT IS STOREXCEL AXZiS?

- ☐ StorExcel AXZiS is a turnkey solution platform that comes fully integrated with Best of Breed digital asset management solutions natively onto Quantum's Xcellis storage platform.

## WHAT CUSTOMER PROFILE IS AXZiS BEST SUITED FOR?

- ☐ Small creative companies or large enterprises with dedicated creative service departments.
- ☐ Starting at 5-25 content producers and creators working with a mix of video, print, still, and other unstructured data types - who are experiencing challenges managing digital assets throughout their lifecycle, due to digital supply chain drivers including social media and related digital on-ramps.

*Note: Larger environments (25-1,000+ users) can simply leverage these same components, but deployed on dedicated hardware for Day 1 scalability.*

## WHY CHOOSE AXZiS?

- ❑ StorExcel AXZiS delivers a MAM solution that is natively integrated with proven storage that can scale from small workgroups to large enterprises with FIRST call support by StorExcel.
- ❑ StorExcel AXZiS fills the integration requirements needed in the digital media supply chain within any small business or organization. This includes the process of delivering digital media, be it print, graphics audio, or video from the point of origin (content producer) to destination (content consumer).
- ❑ StorExcel AXZiS tracks the progress, approvals, and governance of the content as it goes through the digital media supply chain (or “workflow”).
